

Learner Self-reflection 5 – 24350 (v3) Identify, select, use and maintain portable power tools for BCATS projects

Student name:

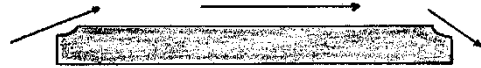

- 1 What objects sometimes found in timber will chip blades?

- 2 What will happen if you place your fingers under a planer while it is going?

- 3 Why should you wait until the blades have stopped before putting the planer down?

- 4 Why should you never use your fingers to clean out a chip chute?

5 How do you prevent gouging at either end of timber when using a planer?

--

6 List at least 5 safety rules for nail guns.

1.
2.
3.
4.
5.
6.
7.
8.
9.

7 What is the number one rule when using airless spray guns?

--

8 What is likely to happen if this rule isn't followed?

--

9 What PPE must always be used when mixing concrete?

--

10 Why is it important to never direct compressed air at any part of anyone's body?
