Assessment schedule: Skill Standard 40550

Learners must complete basic concrete placement, without being prompted, as a BCATS project to be awarded this skill standard.

Assessment decisions should only be made when the project is completed and sufficient evidence has been gathered.

The schedule below shows the evidence required for assessment criteria in the skill standard, guidance for the teacher and judgement statement/s. **Note:** teacher observations and comments made in the assessment resource serve as key evidence requirements for each skill standard. All guidance below is intended to support the teacher's observations/comments.

Learning outcome	**Evidence required**	**Teacher guidance** (to be used in accordance with commentary in the Programme Guidance document)	**Judgement statement**
Carry out basic concrete placement as a BCATS project.	A completed *Materials list* completed.	Each material required for the project, along with its quantity, must be listed based on the information in the project instructions.	Evidence must meet the minimum of Achieved criteria as outlined in the Waihanga Ara Rau BCATS Programme Guidance document – SS 40550. Comments related to the award of higher grades must reflect commentary in the Programme Guidance.
	Photos that clearly show the completed formwork before the concrete is placed.	Photos must clearly show the completed formwork prior to concrete placement to inform the assessment of the final concrete and any issues observed.	
	Photos that clearly show the finish and detail on the completed project.	Photos must clearly show the completed project, including the finish and detail, to enable assessment of the learner's skill across the range of project tasks.	
	Copy of the project instructions.	The project instructions are provided as a means of recognising the intended project and comparing it with the result at the end of the construction process.
