BCATS
BUILDING, CONSTRUCTION AND ALLIED TRADES SKILLS

Utility building

Assessment resource

Level 2

6 credits

Skill Standard 40563 (v1)

Construct a utility building as a BCATS project

Learner name: _____

BCATS project: _____

BCITO
He Hunga Hanga Mātou
building people

Assessment: Utility building

Learner instructions

This assessment is about using trade skills, without being prompted, to construct a non-consent utility building as a BCATS project.

You need to show you can:

- prepare a detailed cutting list and materials list
- complete the utility building and finish it to a consistent and reliable standard
- confirm the utility building is weathertight.

The standard will not be signed off until you have completed the project.

Your teacher will observe you working throughout your project. They will provide comments in this assessment resource as evidence to support their observations.

You will need to provide the following evidence to support this. Submit it using myBCITO or the process at your school/organisation.

Completed *Cutting list* and *Materials list* templates.

A completed *Project record* template, showing the tasks and quality checks you carried out, feedback you received, and any changes you made.

Note: If you have completed the assessment activities for Skill Standard 40558 (Plan and monitor the completion of a BCATS project – Level 2, 6 credits), you do not need to complete the project record again.

Photos that clearly show the framing before the cladding is fixed.

Photos that clearly show the finish and detail on the completed project.

It is a good idea to use the assessment checklist in this resource to keep track of the evidence you have collected.

The grade you are awarded will be based on your ability to complete the project to a consistent and reliable standard.

Assessment checklist: Utility building

To be completed by the learner and the teacher.

Assessment activity	Evidence needed	Date all evidence collected (Learner to complete)	Teacher sign-off
Construct a utility building	Completed *Cutting list* and *Materials list* templates.		
	A completed *Project record* template.		
	Photos that clearly show the framing before the cladding is fixed.		
	Photos that clearly show the finish and detail on the completed project.		
Note: A copy of the project brief must also be included in your overall portfolio of evidence.			

Teacher observation: Utility building

Learner name: Project:

Teacher instructions

Below are criteria for the available grades.

Not Achieved	Achieved	Merit	Excellence
Trade skills are not applied appropriately to construct a utility building.	Construct a utility building as a BCATS project.	Efficiently construct a utility building as a BCATS project.	Skilfully construct a utility building as a BCATS project.

Provide comments on the learner's ability to meet the following assessment criteria, considering everything you observed throughout the project.

Project tasks are completed to meet the project brief.	
Quality checks are carried out appropriately to monitor project progress and confirm the utility building is weathertight.	

Grade awarded: Utility building

Teacher instructions

After considering all the evidence collected, enter the grade you will award for Skill Standard 40563, with comments that explain your decision.

Final grade		**Date**	
Justification for final grade (Provide overall comments, considering all evidence collected)			

Teacher and learner sign-off

		Date
Learner signature (Grade received and accepted)		
Teacher sign-off	Name: _____ Signature: _____
